

Northside Independent School District

Internet Publication Permission Form for Student Work and Photographs

The Internet has proven to be a powerful tool for educators as well as an excellent source for communicating information to the public. Every school and department in the Northside Independent School District is encouraged to maintain an Internet web site to help our community effectively use technology to communicate and acquire knowledge. We at the Northside Aquatics Center are proud of our swimmer's accomplishments and want to share what is happening on our campus with our swimmers, parents, community and other schools across the nation and around the world.

Every year our web sites expand. We now publish images of swimmers, team records and other pieces of information and congratulations. However, public schools and departments must follow strict guidelines before publishing pictures and achievements, and the Northside Independent School District policy prohibits the display of individual student pictures on school web pages. Only group pictures will be posted. **No personal information will be published** such as the swimmer's last name, home address, telephone number or grades. Only a student's first name will be used to identify any information that is posted on any Northside Independent School District web site. Copyright laws will protect all photographs and achievements listed.

Please visit our web site at <http://www.nisd.net/aquaww/>.

Swimmer's Name (Print): _____ Grade: _____
Last First

Coach's Name (Print): _____ School: _____
