

Student and Parent Agreement for the Acceptable Use of the District's Electronic Communications System

Students may be given access to the District's Electronic Communications System for educational purposes. **The Electronic Communications System is defined as the District's network, servers, computer workstations, telephones, peripherals, applications, databases, library catalog, online resources, Internet access, e-mail, online class activities and any other technology designated for use by the District for students.**

With this educational opportunity comes responsibility. It is important that students and parents read the Northside ISD Administrative Regulation for Acceptable Use (TEC-01) and this agreement form, and then ask any questions if you need help understanding them. The Northside ISD Administrative Regulation for Acceptable Use (TEC-01) will apply to personal laptops and the use of personal laptops brought to school. Inappropriate system use of the District's Electronic Communications System will result in the consequences below, including loss of the privilege to use this educational tool.

Please acknowledge receipt and understanding of these items found in Addendum #1 by completing and returning the Notice of Acknowledgement and Agreement Form in the back of this handbook. This form must be received before a student can be given access to the system.

Please note that Internet access is part of the District's Electronic Communications Systems. The Internet is a network of many types of communication and information networks, which are used frequently in classroom assignments and include access to library materials and purchased online databases. Some material accessible via the Internet may contain content that is illegal, inaccurate, or potentially offensive to students (or their parents). It is possible for students to access (accidentally or otherwise) these areas of content. While the District uses filtering technology and protection measures to restrict access to such material, it is not possible to absolutely prevent such access. It will be each student's responsibility to follow the rules for appropriate and acceptable use.

SOME RULES FOR APPROPRIATE USE

- Students must only open, view, modify, and delete their own computer files, unless they have specific permission from a teacher or staff member to do otherwise.
- Internet use at school must be primarily related to school assignments and projects.
- Students may be assigned individual accounts to District resources and must use only those accounts and passwords that they have been granted permission by the District to use. All account activity should be for educational purposes only.
- Students are responsible at all times for their use of the District's Electronic Communications System and must assume personal responsibility to behave ethically and responsibly, even when technology provides them the freedom to do otherwise.

that can be damaged. **The District is not responsible for the loss or theft of a personal laptop, nor for damage, nor unauthorized access to the device nor the data that resides therein.** In addition:
