

# Brothers and Sisters Research Kindergarten

Dear Parents,

Today's homework requires that your children become researchers! This is for work they will complete in the computer lab.

Once we have collected data from everyone, we will be creating and analyzing a graph of not only the number of siblings each child has, but how many the class has as a whole!

Please help your child write the names of each brother and sister he or she has:

Student's Name: \_\_\_\_\_

<b>Name of Sibling</b>	<b>Brother</b> <i>Check One</i>	<b>Sister</b> <i>Check One</i>
