

**Product Name:** X-ray glasses

**Product Description:** We designed a box to instead of using the big metal detectors at the airports. They can use the glasses to look thru other people's jackets and bags without them knowing it. The reason that I had put the green on top of the box was to make the box look unique, and that it would stand out from the regular boxes. And I had out it out a big X-RAY sign in the back so that even if the glasses are too big then they would still see it.

**Company Name:** Our company name is GMP and that stands for Giovanni, Pedro, and Mark.

**Group Members:** Giovanni S. and Pedro R.
