

SELF EVALUATION OF THE RESEARCH PROCESS

- What skill(s) did you learn that you can use again?
- How will you be able to use the skill(s) again?
- What did you do well this time?
- What would you do differently next time?
- Which information sources were most useful? (You may be able to use them again when you need information.)
- What information sources did you need but the library did not have? Talk to your librarian about the possibility of getting them.
