

Abstract Rubric (Science Teacher)

Abstract	Accomplished	Proficient	Needs Improvement
	No deficiencies	Some areas need development	Considerable revision needed
Abstract includes a succinct summary of the entire project	Purpose, procedure, hypothesis, discussion of results, and conclusion are complete and concise	Purpose, procedure, hypothesis discussion of results, and conclusion are incomplete and/or inarticulate	Purpose, procedure, hypothesis discussion of results, and conclusion are missing and/or incoherent
Abstract is well-reasoned, analytical, and logical discussion of results	Reasonable and comprehensive conclusions are drawn from the available data	Reasonable but deficient conclusions are drawn from the available data	No reasonable conclusions are drawn from the available data
Abstract Degree to which the study can be generalized and the limitations of the data are recognized	Practical applications of and/or ability to generalize the study are correctly identified and ideas for further research are provided	Practical applications of and/or ability to generalize the study are correctly identified but ideas for further research are not provided	Practical applications of and/or ability to generalize the study are not identified
