

# AUTOMATIC COLLEGE ADMISSIONS

*Students who are in the top 10 percent of their graduating class are eligible for automatic admission to any public university in Texas.*

*To be eligible for automatic admission, a student must*

- *Graduate in the top 10 percent of his or her class at a public or private high school in Texas*
- *Enroll in college no more than two years after graduating from high school; and*
- *Submit a complete application (including test scores, transcript, fees, application form and any additional paperwork) to a Texas public university for admission before the institution's application deadline*

*Students admitted through this route may still be required to provide SAT or ACT scores, although these scores are not used for admissions purposes. Students must also take the THEA test, unless exempted from the test requirement. Check with the college admissions office regarding the THEA, SAT and ACT.*

*After a student is admitted, the university may review the student's high school records to determine if the student is prepared for college-level work. A student who needs additional preparation may be required to take a developmental, enrichment, or orientation course during the semester prior to the first semester of college.*

*Admission to a university does not guarantee acceptance into a particular college of study or department.*
