

# Connecting to Wireless Networks

1. In the System Tray, right-click the Wireless connection icon and select **VIEW AVAILABLE WIRELESS NETWORKS**.
2. In the Wireless Network Connection Window, select **REFRESH NETWORK LIST**.

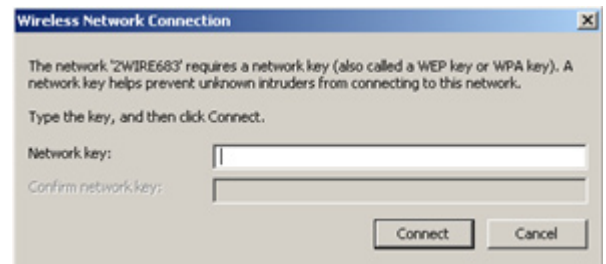

3. Under *Choose a wireless network*, select the network you want to connect with from the list.
4. Select **CONNECT**.

**NOTE:** A pop-up window will appear attempting to detect the network connection you have chosen.

5. If you are attempting to access a network that requires a network key, you will be prompted to enter the required code. Enter the key and click **CONNECT**.

6. After a connection is made, you will see **Connected** to the right of the network you selected.
7. Close the window.
