

Playing a DVD Using Your Laptop

To play a DVD using your laptop, do the following:

1. Open the *DVD bay* and insert the **DVD** into the drive.
2. Close the DVD drive.
3. From the *Start* menu, go to *Programs*, *NISD DVD Player* and select **NISD DVD PLAYER**.

4. Once the Media Player Classic opens, from the *File* menu, select **OPEN DVD**.

5. The video on the DVD will begin to play.
6. Adjust the screen of the Media Player according to the projector.
7. Enjoy!
