

Connecting Personally-owned Laptops to the NISD WiFi

Student Instructions

NOTE: NISD WiFi is intended for use with *personally-owned laptop computers*. Instructions may vary depending on the wireless card and drivers on your laptop. **You will not have access to network drives and printers if you connect to the NISD WiFi on a District-owned laptop. Use of the NISD WiFi is filtered by NISD.**

1. Right-click on the *Wireless Connection* icon in the System Tray and select **VIEW AVAILABLE WIRELESS NETWORKS**.
2. From the list of wireless connections available, select **NISD-WiFi**.

3. Click **CONNECT**.
4. In the *Wireless Network Connection* window type the network key twice and click **CONNECT**.

The network key is **northside** (all lower-case letters)

5. You will see the message *Acquiring network address* next to **NISD-WiFi**.
6. Once connected, you will see *Connected* next to the wireless connection.

7. Launch a browser.
8. At the *Portal login screen* enter your sFiles login information:

In the **Username** field, type your sFiles username.
(e.g. s123456)

In the **Password** field, type your sFiles password.

(e.g. first four letters of your last name and last four numbers of your Social Security number. If your last name has less than four letters, use the number 9 to fulfill the four character requirement)

9. Click **Log In**.
10. You will be redirected to your homepage. You are now connected to the NISD WiFi.
