

To superimpose your picture on to your ecosystem picture:

1. Open Paint.
2. Go to file/open. Navigate to the folder with your picture.
3. Use the Star Free form select tool.
4. Carefully trace around your picture.
5. Go to Edit/cut.
6. Minimize this window, and open paint again.
7. Go to file/open. Navigate to your ecosystem picture.
8. Go to Edit paste.
9. Drag your photo where you want it.
10. Save your picture to your own file.
11. Open Microsoft Office Tools.
12. Go to File/open. Navigate to your photo.
13. Now crop the picture to the size of the original ecosystem photo.
14. Save as a jpg or gif to your folder.
15. Open Powerpoint.
16. Go to Format/Background. Click the down arrow on the bottom and choose fill effects.
17. Click on the Picture tab. Click the select picture button and navigate to your folder to choose your picture. Click on insert and Okay.
18. Now add your title and subtitle.
