

Northside Independent School District

Adopted 2021-2022 Budget

General Fund - Child Nutrition Fund - Debt Service Fund

Presented to the Northside ISD Board of Trustees on
August 24, 2021

The following budgets have been prepared in accordance with the Texas Education Code §44.002. Requirements under §44.004 of the same code related to the *Notice of Budget and Tax Rate* have also been adhered to in the preparation of the adopted 2021-2022 fiscal year budget.

General Fund

The General Fund is the largest of the three funds to be considered for adoption and accounts for the majority of instructional and operational activities of the District. Total General Fund revenues are projected to be just over \$941 million with a roughly two-third, one-third split between local and state revenue respectively. Federal revenue, (not ESSER) accounts for just over 3% of budgeted General Fund revenue. Local taxes will be generated with a proposed maintenance and operations (M&O) tax rate of \$0.9258, comprised of an assigned¹ Tier 1 tax rate of \$0.8758 plus \$0.05 of enrichment pennies, also referred to as “golden” pennies. State revenues continue to be formulaic and are predicated primarily on an estimated average daily attendance (ADA) of 97,500 students.²

Total expenditures in the General Fund are budgeted at \$975.8 million, with 85% of those expenditures accounted for in direct instruction, instructional support and school leadership, and student support. Included in these expenditures is the increase in compensation of \$24.5 million for employees of either 3.5% or 3% on the mid-point.

The net result of operations for the General Fund is a deficit of \$34.6 million. This deficit does not take into account any unexpended budgeted funds, which are normal and customary in any budget.

¹ Under HB 3, passed by the Texas Legislature in 2019, starting in fiscal year 2020-21, a portion of a school district's M&O rate will be calculated by the Texas Education Agency and assigned to the district.

² By way of comparison, the final ADA for fiscal year 2020-21 was 97,552.

Child Nutrition Fund

The Child Nutrition Fund accounts for the various programs that provide meals to Northside ISD students. Both revenues and expenditures are expected to stabilize after a tumultuous 2020-21.

Revenue for the Child Nutrition Fund will be primarily federal, through reimbursements paid for every meal served. Every NISD student will eat for free in 2021-22. Federal revenue accounts for 95% of the total expected revenue of \$62 million. Expenditures are budgeted at \$60 million and will result in an expected surplus of \$2 million for the Child Nutrition Fund. This will begin the process of rebuilding the Child Nutrition fund balance. Like the General Fund, the Child Nutrition budget does not take into account unexpended budgeted funds.

Debt Service Fund

The final fund to consider for approval is the Debt Service Fund, which accounts for taxes collected to repay bonded debt. In addition to the scheduled bond principal and interest payments in 2021-22, the District has planned a cash defeasance payment of principal in an amount of no less than \$46.4 million, bringing the total budgeted debt service expenditures to \$208.4 million. Defeasance is the accelerated payment of bond principal, thus both reducing the amount of outstanding principal and lowering the amount of interest paid by NISD taxpayers.

Revenues to cover the defeasance and scheduled payments will be generated by applying an interest and sinking (I&S) tax rate of \$0.3355 to taxable values. The proposed I&S tax rate will be the eleventh year in a row the I&S rate has been \$0.3355. Total budgeted revenue for the Debt Service Fund is \$215.1 million and will result in an increase in fund balance of approximately \$6.6 million.

Taxable Values

Certified values were received in late July 2021, from the counties of Bexar, Bandera, and Medina. The district calculates a separate taxable value for budgeting purposes that assumes values under appraisal review board (ARB), at the date of certification, will come onto the rolls at lower values. Estimated taxable value for tax year 2021 is \$64,288,422,891, which is a 4.96% increase from prior year. The District will apply the proposed total tax rate of \$1.2613 to this value to fund operations in the General Fund (along with state and federal dollars) and collect taxes to repay bonded debt.

GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll or certified estimate of value and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submit the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

This worksheet is for **school districts without Chapter 313 agreements only**. School districts that have a Chapter 313 agreement should use Comptroller Form 50-884 *Tax Rate Calculation Worksheet, School Districts with Chapter 313 Agreements*.

Water districts as defined under Water Code Section 49.001(1) do not use this form. Use Comptroller Form 50-858 *Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* or Comptroller Form 50-860 *Developed Water District Voter-Approval Tax Rate Worksheet*.

All other taxing units should use Comptroller Form 50-856 *Tax Rate Calculation, Taxing Units Other Than School Districts or Water Districts*.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The Texas Education Agency (TEA) provides detailed information on and guidance to school districts in calculating their tax rates. Please review and rely on information provided by TEA when completing this worksheet. Additionally, the information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: No-New-Revenue Tax Rate	
The no-new-revenue (NNR) tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of revenue if applied to the same properties that are taxed in both years (no new taxes). When appraisal values increase, the NNR tax rate should decrease.	
No-New-Revenue Tax Rate Worksheet	Amount/Rate
1. 2020 total taxable value. Enter the amount of 2020 taxable value on the 2020 tax roll today. Include any adjustments since last year's certification; exclude one-fourth and one-third over-appraisal corrections made under Tax Code Section 25.25(d) from these adjustments. Exclude any property value subject to an appeal under Chapter 42 as of July 25 (will add undisputed value in Line 6). This total includes the taxable value of homesteads with tax ceilings (will deduct in Line 2).	\$63,745,543,985

SECTION 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. Most school districts calculate a voter-approval tax rate that is split into three separate rates.

1. **Maximum Compressed Tax Rate (MCR):** A district's maximum compressed tax rate is defined as the tax rate for the current tax year per \$100 of valuation of taxable property at which the district must levy a maintenance and operations tax to receive the full amount of the tier one allotment.
2. **Enrichment Tax Rate (DTR):** A district's enrichment tax rate is defined as any tax effort in excess of the district's MCR and less than \$0.17. The enrichment tax rate is divided into golden pennies and copper pennies. School districts can claim up to 8 golden pennies, not subject to compression, and 9 copper pennies which are subject to compression with any increases in the guaranteed yield.
3. **Debt Rate:** The debt tax rate includes the debt service necessary to pay the school district's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The MCR and DTR added together make up the school district's maintenance and operations (M&O) tax rate. Districts cannot increase the district's M&O tax rate to create a surplus in M&O tax revenue for the purpose of paying the district's debt service.

If a school district adopted a tax rate that exceeded its voter-approval tax rate without holding an election to respond to a disaster in the prior year, as allowed by Tax Code Section 26.042(e), the school district may not consider the amount by which it exceeded its voter-approval tax rate (disaster pennies) in the calculation this year. This adjustment will be made in Section 4 of this worksheet.

A district must complete an efficiency audit before seeking voter approval to adopt a M&O tax rate higher than the calculated M&O tax rate, hold an open meeting to discuss the results of the audit, and post the results of the audit on the district's website 30 days prior to the election. Additionally, a school district located in an area declared a disaster by the governor may adopt a M&O tax rate higher than the calculated M&O tax rate during the two-year period following the date of the *declaration without conducting an efficiency audit*.

Districts should review information from TEA when calculating their voter-approval rate.

A. Debt includes contractual payments to other school districts that have incurred debt on behalf of this school district, if those debts meet the four conditions above. Include only amounts that will be paid from property tax revenue. Do not include appraisal district budget payments. SECTION 3: Voter-Approval Tax Rate Adjustment for Pollution Control

A school district may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The school district's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The school district must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a school district that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

SECTION 4: Voter-Approval Tax Rate Adjustment in Year Following Disaster

If a school district adopted a tax rate that exceeded its voter-approval tax rate without holding an election to respond to a disaster in the prior year, as allowed by Tax Code Section 26.042(e), the school district may not consider the amount by which it exceeded its voter-approval tax rate in the calculation this year.³⁵ As such, it must reduce its voter-approval tax rate for the current tax year.

NOTE: This section will not apply to any taxing units in 2021. It is added to implement Senate Bill 1438 (87th Regular Session) and does not apply to a school district that adopted a tax rate without the required election in 2020, as provided for in the recently repealed Tax Code Section 26.08(a-1).

In future tax years, this section will apply to school district in a disaster area that adopts a tax rate greater than its voter-approval tax rate without holding an election in the prior year, as provided for by Tax Code Section 26.042(e).
