## **C. Northside Connect Virtual School**

### **Type: Information**

The district plans to launch a virtual high school in January to meet growing community demand and stay competitive with other districts. The program will serve grades 9–12, offer 100% virtual instruction, and allow students to participate in UIL activities through their home campus. Flexibility is the primary driver, especially for homeschooled families and students with travel needs.

The virtual school, tentatively named Northside Connect, will serve in-district and out-of-district students, with instruction provided through a vendor selected via RFP. While the program may not be perfect initially, delaying implementation could result in losing students to other options. Student progress will be monitored, and those who struggle may transition back to a traditional campus to ensure success.
