

ClassDojo

Dear Families and Students,

We have exciting news: starting 8/7/26 teachers, coaches, and staff will be able to message students directly and securely through ClassDojo **Teacher-Student-Parent Messaging**.

What students can expect

- You'll receive an invitation at your school email address from hello@classdojo.com starting the week of 8/10/26. Check your spam folder if you don't see it.
- Follow the link to set up your ClassDojo student account using your school's Google login.
- Once your account is active, your teacher can start a message thread with you. Please note: You cannot start new message threads. Teachers initiate all conversations.
- All messages can be viewed by your parents/guardians and school leadership.

What parents and guardians can expect

- You'll receive a notification when your child is first invited to set up their student account.
- You can view your child's messages at any time by navigating to the Kids tab and tapping "Chats."
- For Teacher-Student-Parent Messaging, you will be able to message your child and their teacher together. This makes it easy to address time-sensitive logistics or academic needs as a family.

Questions about setting up your account? Review the [FAQ guide here](#) here or Contact ClassDojo support at help@classdojo.com.

Warmly,
Campus Administration
