						Tutoring by appointment. Students have been instructed to speak to me in class, email, message on schoology if they need help outside of class time. All work is done in class so students will know as soon as the lesson is over if there is confusion. I have instructed them and give continuous reminders that if they need help I can be available many days a week they just need to talk to me so we can find a time that works for them. I also tell students they are always welcome to come in 4th or 5th if they have lunch and I can work with them after I finish the lesson for that period.
