

October 3, 2022

Dear Parent or Guardian,

Texas Senate Bill 9 requires written parent/guardian consent before a student is provided with curriculum instruction relating to child anti-victimization. Your student is enrolled in a Health Education/CTE class which includes Child Anti-Victimization instruction. Child Anti-Victimization instruction includes topics such as the prevention of child abuse, family violence, dating violence, and sex trafficking. Educating students to develop healthy relationships and behaviors can improve their overall health and contribute to patterns of wellness that will extend into adulthood. To help guide students along the path to healthy living, Goodheart-Wilcox assembled an award-winning author team to create the most current and comprehensive child anti-victimization curriculum. The district is confident the information presented to students on this topic is age and grade-level appropriate; however parents have the right to view the curriculum and/or remove their child from this instruction.

Please indicate below if you would prefer for your student to opt in or opt out of the child anti-victimization instruction. If we do not receive your signed consent on or before October 31st, the instruction is scheduled to begin, or you indicate that you do not consent, your child will not receive the anti-victimization instruction. Instead, your child will participate in an alternative instructional activity provided in a separate location on campus, and will not be subject to disciplinary action, academic penalty or other sanction.

If you have any questions please visit our district webpage: www.nisd.net/district/whole-child/health-education or contact Caitlin Bollier, NISD Health Education Specialist at (210) 397-3567 or caitlin.bollier@nisd.net.

Respectfully,

Caitlin Bollier
