NORTHSIDE ISD COUNSELING DEPARTMENT

GRADUATION REQUIREMENT

DIRECT ADMISSIONS- MY TEXAS FUTURE

Beginning with the 2026-2027 school year, Texas Senate Bill 2314 requires all Texas Public School students to either opt in to share their academic information for Direct Admissions through My Texas Future or submit an opt-out form to meet graduation requirements. Opting in allows the Texas Higher Education Coordinating Board to share a student's academic information with colleges.

Counselors can help students create or access their **My Texas Future** learner profile and decide whether to opt in to share their academic information for Direct Admissions or submit the Texas Education Agency (TEA) opt-out form.

OPT IN

- Students create an online profile and account on My Texas Future.
- Students review the Direct Admissions terms and opt in to share their academic information for Direct Admissions through My Texas Future.
- Students who have opted in may receive direct admissions to colleges that match their student profile.

OPT OUT

- Students can opt out of sharing by asking their school counselor for the official district-provided opt-out form and current instructions.
- Complete the opt-out form; a parent signature is required.
- Return the form to your school counselor.

About My Texas Future Direct Admissions:

- Direct Admissions matches your self-reported academic information with Texas colleges' admissions requirements to show you which schools will accept you.
- Once you enter your information and agree to share it, you may immediately see a list of colleges offering you admission through Direct Admissions.

Important Disclaimer:

- The Direct Admission process is not an admissions application. Students must apply and submit the required documents to gain admission to the college.
- Direct Admissions tells you if you're accepted to the college—not a specific major. It does not guarantee admission into the student's selected major. Students should review the specific requirements for their intended major on the college/university admissions website.
