FLEX is an additional period that requires a modified bell schedule to allow for targeted intervention, extension, and enrichment.

The FLEX period falls between 2nd and 3rd period, lasting a total of 30 minutes.

FLEX is meant to add "flex"ability to our students' already busy schedules by allowing for tutoring during the school day.

During FLEX time, all teachers are available to assist students. A student may be invited to a FLEX session by a teacher, or the student may select the teacher through the "FlexiSched" system.

All students are required to log into the FlexiSched system and select a class to attend Tuesday-Friday each week. Students who do not select a class to attend will be assigned to one.

On Mondays, students will remain in their 2nd period class for an advisory period.
