

March 26, 2021

Dear Parents/Guardians,

We are so excited to have our **construction** completed. Earlier in the year, our H upstairs wing was completed and it was a welcomed addition. This week, we have been able to move our science classes back into the building. It's a huge task for our teachers to pack up their classrooms in the portables and then unload them into their new rooms, but it is certainly a welcome task. This is also impacting our Healthy Habits portable classroom and our Comm Apps/MAPS portable classrooms. They too are moving, but to other portable buildings. These classrooms will be housed in the three portables that were here before construction started.

The science classrooms are more functional and beautiful. Both teachers and students are grateful to be out of the portables and into the new classrooms!

Be looking for upcoming **“in person” events**. A few that are in the planning stages now are the NJHS ceremony, a yearbook signing party, and a student achievement recognition ceremony. There will be more to come on these events.

I am encouraging all parents who want their child to **attend school in-person** to contact our Counseling Office at number, **210-397-5332**. We will honor your requests. We know that virtual learning can be difficult. We want to help your child be successful.

If you would like a **campus tour**, please contact the Counseling Office.

Also, If you would like to **meet with your child’s teachers**, please contact your child’s counselor. The counselor will set up a Zoom meeting so you can address any concerns you may have. The Grade Reporting Secretary, **Laura Walker**, will be happy to help you. That number is **210-397-5332**.

Be aware that immunizations need to be up to date to be an in-person learner. If you are not sure about your child's immunizations, you may call Nurse Haynes at **210-397-5309** or email her at Erika.haynes@nisd.net. She will be able to assist you.

Need a Device?

Please go to our website to fill out the Technology Lending Agreement.

Mobile Immunization Clinics

All currently enrolled students should be up to date with their immunizations. The link below lists mobile immunization clinics for students and includes the dates and sites as well as an option to fill out the packet that needs to be completed for their visit.

COUNSELORS' CORNER

Hello Longhorn Family!

Your Counselors will be presenting guidance lessons in the classroom in April to cover stress, coping skills, and healthy relationships. We are also working on encouraging students to complete their course protection pretests and assignments. If this applies to your child, please check in with them or their counselor to determine their progress. Also, we are very happy to be welcoming our students back to in-person learning and have seen many students quickly bring their grades up shortly after their return to campus. Again, please contact your child's counselor about having them return to campus. Have a nice restful weekend!

We are Lucky to be Longhorns- Notes of Appreciation

Dear Parents and Virtual Learners,

Do you have a teacher or staff member you would like to thank? During March we are celebrating our faculty and staff members with notes telling them how "lucky" we are to have them. If you would like your virtual learner to participate, please complete [this form](#).

We will copy your message onto a "coin" and deliver it to the faculty or staff member this month. Notes can be written for teachers, custodians, secretaries, administrators, cafeteria workers, and any other adult on the Luna campus that you would like to thank.

It is so great that we are **Back.Together.Better.** Longhorn Pride Never Dies!
